list of requests

Discard the used needle
by Put the plastic sleeve
on before throwing it in
the trash. (not
contaminated with
infectious waste)

The container must be either a
plastic or metal bottle equipped
with secured lid.

Caution !!!

Do not dispose of needles or sharp
objects in a plastic bag without a
protective container.

If the needle is already in a glass bottle The glass jars must be
placed in a plastic container or shockproof device before disposing of
them.
